MEMORANDUM FOR: Director of Technical Service, DS&T

FROM: Edward J. Maloney
Director of Information Technology, DA

25X1 SUBJECT: STU-III Requirements for OTS Contractors [redacted]

REFERENCE: OTS-384/88 memo dtd 07 Jul 88; Same subject

25X1 1. The Domestic Field Division (DFD/OG/OIT), in concert with Customer Service Group/OIT (CSG/OIT), will take action to install requested STU-III's. A target date for installation is dependent upon availability of units and finalization of ComSec issues concerning the entire STU-III program. [redacted]

25X1 2. DFD/OG/OIT has sole responsibility for oversight inspections and will add your new facilities to the oversight inspection program. [redacted]

25X1 3. DFD/OG/OIT and CSG/OIT will be responsible for the installation, training and maintenance for all of your requested STU-III's. [redacted]

4. It is requested that your office take action on the following items:

A. Set up (or use existing) crypto accounts for each facility.

B. Ensure that each location meets security requirements for installation of a STU-III.

C. Order a single phone line for each STU-III.

D. Order and ship the requisite STU-III's with appropriate crypto key.

25X1 E. Advise when the units are on site so installation and training can be scheduled. [redacted]

25X1 5. Any questions on this matter should be directed to [redacted]
25X1 Chief, Plans & Projects Branch, DFD/OG/OIT [redacted]

OTS-384/88

7 JUL 1988

MEMORANDUM FOR: Director of Information Technology

FROM: [Redacted]
Director of Technical Service

SUBJECT: STU-III (secure telephone) Requirements for OTS
Contractors and Associated Project Offices [Redacted]

1. The Office of Technical Service (OTS) request the support of the Office of Information Technology for the installation and oversight responsibilities of STU-III's located at OTS contractor facilities nationwide and associated project offices within the metropolitan area. We have projected a target date for installation of these units to be on or before 15 August 1988. [Redacted]

2. Through OTS Contract Security Staff, the proposed areas where STU-III's are to be located have either been certified for or are in the process of being certified for the storage of SECRET or TOP SECRET material/equipment. Additionally, all personnel using the STU-III's currently hold Industrial Security Access (ISA) clearances, appropriate for their facility. [Redacted]

3. The OTS Communications Security Staff (OTS/COMSEC) will have the required STU-III's to meet subject requirements. We have purchased several STU-III's through DS&T/ODE STU-III allocation. [Redacted]

4. It's our understanding that EUSCA and WUSCA personnel are willing to provide installation and oversight responsibilities for OTS contractor facility STU-III's as tasked by D/OIT. Should D/OIT prefer, OTS/COMSEC will provide necessary installation and oversight responsibilities for STU-III's associated with OTS contractor facilities and metropolitan OTS project offices only. Please advise. [Redacted]
